IBM BWL

PROCESS MODELING
BLUEWORKS LIVE

REACH YOUR FULL AUTOMATION POTENTIAL

Are you looking for collaboration and visibility across your teams or enterprise as you model out your processes? We've got you covered!
IBM BWL helps you model your processes simplistically and collaboratively, allowing companies to recognize inefficiencies and bottlenecks across their processes. Salient's process analyst team can help you with your overall approach to modeling, governance, and Blueworks Live best practices.

SCALE YOUR AUTOMATION PROGRAM

- ✔ Blueworks Live allows users to work collaboratively on the same process in separate locations with simply an internet connection.

- ✔ Leverage your workload by documenting opportunities and combining modeling efforts to ensure you are on your way to greatness.

- ✔ Blueworks Live has a comprehensive and growing library of industry process templates that organizations can quickly customize for their needs.

GET STARTED IN 3 EASY STEPS

Automation Discovery Workshop
We'll review your current business processes and evaluate the next steps for your automation needs.

Automation Alignment
We'll analyze the information from the workshop to help align your processes with the appropriate automation solutions.

Automation Prioritization
Based on steps 1 and 2, we can assist you in prioritizing your automation initiatives to align with your corporate goals.
