Enhance your IBM Blueworks Live Experience with Blueworks Insights

IBM BLUEWORKS LIVE

Blueworks Live from IBM is a powerful and intuitive platform businesses use worldwide. It allows organizations to centralize, standardize, and document their core business processes. With a focus on adding business and process-specific metrics, it goes beyond traditional drawings.

BLUEWORKS INSIGHTS

Add reporting, visualizations, analytics, management, and more to your existing IBM Blueworks Live platform. Blueworks Insights relies on direct access to IBM Blueworks Live for most of its data. As long as that user has access to IBM Blueworks Live, they can also log into Blueworks Insights.
