Let us help you evaluate and automate the processes holding you back. We'll work with you to align your business goals and processes.

Salient Process is a global leader in aligning enterprise processes and goals. We'll help you evaluate and automate the processes holding you back.

- **Tailored Solutions for Your Business**
- **Create Efficiency and Reduce Costs**
- **Achieve Business Goals Quickly**

We revolutionize enterprise operations by enhancing workflows and automating processes that generate the maximum ROI. We tailor our approach to your unique business needs and specialize in high-performing solutions, encompassing all Hyperautomation solutions. Moreover, we provide a leading platform to plan and track organizational change across the enterprise with **Business Compass** and **Blueworks Live**.

Analyze & Optimize

Salient Process works directly with enterprise clients to analyze the processes holding them back, discover potential improvements, and optimize those processes for maximum efficiency. We believe in guiding our clients to create efficiency before automating an inefficient process.

Automate & Excel

Our team of experts will ensure that your processes are aligned for automation, helping you reach your business goals quickly. Automating complex processes can enhance customer and employee satisfaction, increase efficiency, save time, and reduce costs.

Advanced Training

We source highly certified analysts for your company to work with at a fraction of the cost. Our expert training and workshops help companies develop new ways of working to thrive in today's fast, competitive landscape. Grow your business and enhance your skills while saving money!

**Why
Salient
Process**

- Our dedicated team of knowledgeable analysts and automation advisors are committed to your success, ensuring that your best interests are met as we guide you toward your goals – without incurring unnecessary costs.
- These transformative solutions—Process Analysis, Automation, and Training—empower our clients to confidently pursue their aspirations while also guiding them towards attaining a comprehensive and holistic view of their business.

**CURTISS -
WRIGHT**

“The Salient Process team has greatly impressed us. They provided us with Business Compass and Blueworks Live, streamlining our program management and replacing complex spreadsheets. They also helped us establish a Process Improvement Lifecycle (PIL), guiding our Continuous Improvement Teams with best practices.

The PIL ensures a standardized approach to process improvement, significantly reducing the learning curve when using these tools.”

Tad Gray
